

Mini demo: Painless workplace assessments using Glasshouse

Robin Petterd

Founder of Sprout Labs, host of the 'Learning While Working' podcast

Sprout Labs

Sprout Labs builds digital learning platforms that enable you and your team to author, deliver and measure high impact digital learning ecosystems.

Great digital learning is not just about technology. We help you develop the capabilities to design and develop great digital learning.

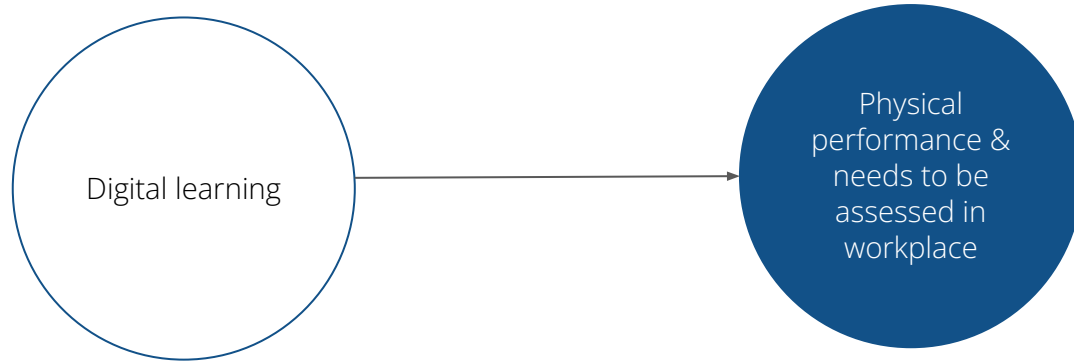

Good assessment
practice is often
NOT easy

Competency - is
about **performing**
not knowing

One of the challenges of frontline work and digital learning

Risk based approach to deciding assessment strategies

Knowledge quiz

Scenario based assessments

Written assignments

Evidence - projects

Evidence - work samples

Evidence - data and observations

Low risk behaviour

High risk behaviour

Frontline employees

Challenges of checklists for assessment

Seen as extra
work by
everyone

Often paper
based - which
leads to data
entry

Accuracy and
reliability -
version control

Not integrated

Digital checklists can
solve these
challenges

What is Glasshouse: It's a Learning Experience Platform

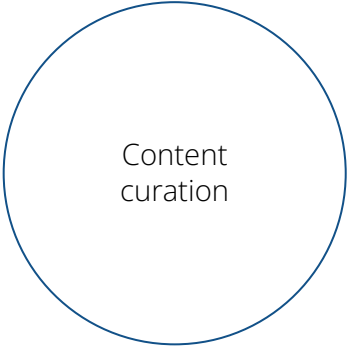

HTML based
cloud
authoring

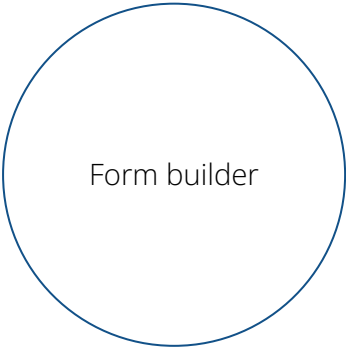

Data rich

Learning
campaigns &
email
automations

Content
curation

Form builder

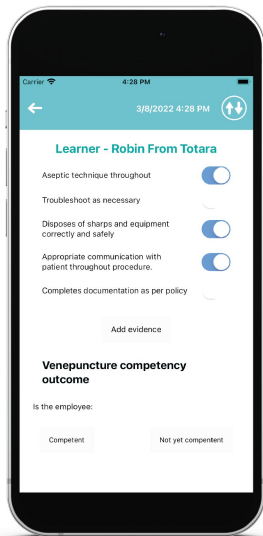

This is how you can
make checklists

How the user experience works

Your LMS

Learner can view the checklist in your LMS

Assessor can see the completion in your LMS

Assessor completes the assessment on mobile device

Glasshouse

Detailed reporting on the checklist is in Glasshouse as PDFs

How the data flows

Your LMS

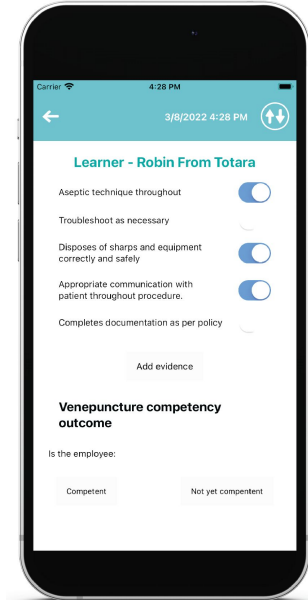

LTI
External tool in
Totara/Moodle
Canvas also use LTI

Application programming
interfaces

Glasshouse

Authoring
Detailed
reporting

Demo
